# A complete solution, with alerts and integrity reports

Alerts  
**611**  
alerts shared

The ULIS Operations Team generates alerts that are sent to members and partners each time an irregularity is detected in terms of betting patterns. It can be automatically or manually generated; red or yellow, depending on the degree of suspiciousness.

Integrity Reports  
**45**  
total reports

When the irregular betting patterns that were detected cannot be justified on objective grounds, after exchanging information with our members and partners, ULIS produces an integrity report that can be used for judicial proceedings.
