TRENDS

- We have an increasing trend on the amount of alerts shared in March 2023 compared to February. We see a large increase of alerts in football which could be due to the restart after winter break and the start of spring-winter season.
- We have shared more red alerts compared to February 2023 due to increased number of football matches played. In March 2023, 26 out of 28 red alerts are related to Football.
- In March 2023, European football takes up the majority of the red alerts. They are mainly from the Eastern European competitions.
- We have shared more red alerts compared to March 2022. There were 28 red alerts in March 2023 while 3 red alerts in 2022.
